

Multimedia : Web-Design  
Grades 4 - 8 Course Outline  
2019-2020

“The internet is becoming the town square for the global village of tomorrow.” - Bill Gates

Multimedia : Web Design allows students to navigate the challenges of modernity by developing those skills necessary to understand a correct and positive use of the internet.

The course will focus on creating original content using a wide array of resources (e.g. videos, blogs, animation. etc.) always respecting the boundaries of privacy and good mannerisms.

The teamwork and collaboration that will occur in this course will help students to find their own voices while becoming savvy and competent in social media and technology.

This course will be solely graded on the 6P`s.

Students will be provided with desktops, laptops, ipads and photo-cameras.
