

10th Grade Yearbook/ICT Course
2019-2020

“The one thing I need to leave behind is good memories.” - Michael Landon

The Yearbook/ICT course allows students the opportunity to compile memories from the year, interact with all students of the school, use technology in a meaningful way, and share a finished product that will be appreciated by everyone.

The course will focus on learning ICT and creativity skills of creating content with the program Affinity Photo, which will challenge students to combine text and photos to create pages. Students will also learn collaboration skills as the Yearbook will be a year-long group project.

Every student will work with the school computers in the school's Tech room to use the program Affinity Photo.

EARNING YOUR GRADE

Your grade will be determined by your work in these categories:

6P's = 100%
