# Tokyo International Progressive School 

Grade 9 Algebra 1 Course Outline

2023-2024
Kurtis Tomlinson, Room 25

## DESCRIPTION OF COURSE

Algebra 1 is a course designed to help students understand the meaning of variables and how we use them to represent numbers. Students will learn how to solve equations and inequalities with one or two variables, how to graph equations, and understand the relationship between a graph and its equation. Most importantly, this course will give students a basic understanding of algebra: how numbers and variables work together. The goal of this course is to refresh the algebra skills students already have (even if they may not realize they have them), challenge their minds to learn more difficult material, and build new mathematical knowledge through problem solving.

Topics include rational numbers, solving equations and inequalities, factoring polynomials, and systems of equations and inequalities. The title of the textbook used for this course is Algebra 1.

## STUDENT EXPECTATIONS

Students need to bring pencils, a ruler, an eraser, a scientific calculator, and a notebook to class.

At the beginning of the school year, you will be issued a textbook. If this textbook is not returned in usable condition by the required date, your family will be asked to pay for a replacement.

Quizzes will be given at the end of every week. Projects will be due before each progress test.

Any projects that are late, without having made arrangements with the teacher at least one week prior, will receive a zero in their project mark. The mark will be changed upon submission of the assignment.

No food is allowed in the classroom. Students are permitted to bring closed containers of water to the classroom.

## EARNING YOUR GRADE

Your grade will be determined by your work in these categories:

| Grade Category | Percentage of <br> your grade |
| :--- | :--- |
| Quiz | $20 \%$ |
| Daily Work | $30 \%$ |
| Project | $30 \%$ |
| Test | $20 \%$ |

The grading scale for this course will be:

| Letter grade | Mark range |
| :--- | :--- |
| A+ | $98-100$ |
| A | $93-97$ |
| B+ | $90-92$ |
| B | $85-89$ |
| C+ | $82-84$ |
| C | $77-81$ |
| D+ | $74-76$ |
| D | $70-73$ |
| F | 69 or below |

## IMPORTANT DATES

Dates are subject to change.

| Assessment | Date |
| :--- | :--- |
| Math Skills Review Test | September 1 |
| Chapter 1 progress test - Variables, Function Patterns, and <br> Graphs | September 22 |
| Chapter 2 progress test - Rational Numbers | October 6 |
| Chapter 3 progress test - Solving Equations | October 27 |
| Chapter 4 progress test - Solving Inequalities | November 8 |
| Chapter 5 progress test - Graphs and Functions | November 24 |
| Chapter 6 progress test - Linear Equations and Their <br> Graphs | December 14 |
| Chapter 7 progress test - Systems of Equations and <br> Inequalities | January 26 |
| Chapter 8 progress test - Exponents and Exponential <br> Functions | February 16 |
| Chapter 9 progress test - Polynomials and Factoring | March 7 |
| Chapter 10 progress test - Quadratic Equations and <br> Functions | April 5 |
| Chapter 11 progress test - Radical Expressions and <br> Equations | May 2 |
| Chapter 12 progress test - Rational Expressions and <br> Functions | May 24 |
| Review Test | June 7 |
